

Information Note

Introduction

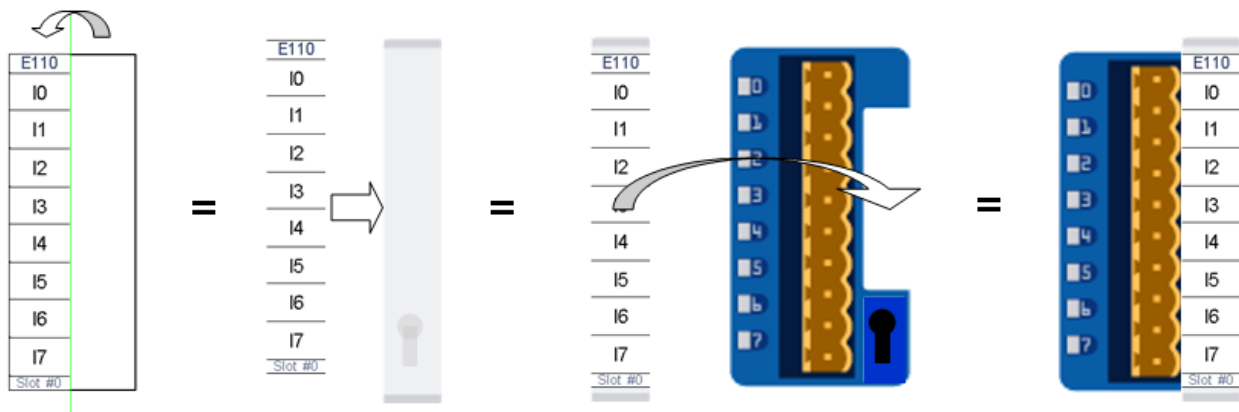

You have received a PCD3 I/O Labelling Clips Set. The labels can be printed using the Label Editor included in the PG5 Device Configurator.

Content of the Set

- 10 × Snap on transparent label holders
- 2 × DIN A4 – Sheets with neutral pre-cut PCD3 I/O inscription Labels
- This “Information Note”

How it's works?

1. Start the Label Editor from the PG5 Device Configurator (Menu Tools Label Editor)
2. Select I/O module and modify default I/O text description according to your own wishes.
3. Print-outs on corresponding A4 Paper, with predefined labelling size *or normal A4 paper with border*.
4. Remove *or cut out* the single inscription label from Paper.
5. Bend in two the inscription label and insert into the left side of the Snap on transparent label holder.
